Located in Estepona, one of the most attractive corners of the Costa del Sol. The Malaga town has not abandoned its roots and its nautical traditions, but has become one of the most popular places on the Costa del Sol thanks to its unique quality of life and its leisure offer. Its golf club enjoys the name of "Costa del Golf", and its spectacular natural landscape allows the practice of various outdoor sports in the sea and in the mountains. In addition, its privileged climate, known for its 325 sunny days a year, combined with its protected location make the city a model of quality of life in Spain and Europe. Capri enjoys excellent access to the main highways of the province, just 10 minutes from Puerto Banús and less than 45 minutes from Malaga Airport. The quality, service and great accessibility of its beaches have been awarded a record number of Blue Flags. Capri opens up to its surroundings through a distribution that guarantees maximum privacy and optimizes the use of sunlight. To this end, the architects of TAU 2000 have carried out a careful orientation study, ensuring that each home has the highest level of comfort without renouncing the unique design that gives character to the entire complex. Whether in its spacious residences or in its well-kept public areas, the selected materials enhance the sensation of space and allow the integration of vegetation. Make your home your own oasis. This project takes us to the golden age of the Mediterranean, to the spirit of interconnection and connection between its cultures. Window from the mountains to the horizon. A safe and peaceful environment designed to give you and your loved ones peace of mind. A project that puts the best architecture at the service of your well-being.
