Parking places: by request

Price: 6,400,000 €
Printing day : 31st May 2026

Overview: Four villas in Lomas de Marbella Club, designed with the highest standards of quality and luxury, incorporating energy systems and characteristics of the most avant-garde architecture. Beauty, elegance and comfort characterize these south-facing villas, with a classic and modern appearance, with superior qualities and exceptional materials. The villas have an elevated position which, together with their orientation, offers a beautiful view of both the sea and the La Concha mountain. Upon entering the villas, there is a very spacious outdoor parking area decorated with a water fountain that gives an elegant and characterful touch to the entrance. The villas have a garden that surrounds them, with green areas and decorated with a variety of floral plants and palm trees that give them color and movement. The heated saltwater pool has both a covered and an open terrace and an elegant hammock area that invites you to enjoy the good weather in Marbella with family and friends and also in the privacy of the plot. The villas are well-proportioned in terms of layout, spread over 3 levels and a solarium to create an exquisitely appointed 6-bedroom residence with multiple entertainment areas. The access to the villa is impressive thanks to its double height ceiling and large contemporary pillars. Upon entering the villa, the main floor has a large space divided into several areas, one of them with a large fireplace, dining room and living room. The fully equipped kitchen with state of the art appliances has a custom built island. The entire floor has access to the terraces, garden and pool, with areas to relax and have fun. The upper floor consists of 3 bedrooms with en-suite bathrooms and dressing rooms. The master bedroom with access to the large terrace has a spectacular view of the pool and the sea. The attractive basement has parking for 3 cars, a laundry area and a staff apartment with a dirty kitchen and direct elevator access to the kitchen on the main floor. In addition, on this floor there are 3 more bedrooms with natural light, perfect for guests. In addition to the garden entertainment areas, on the top floor of the house is a solarium with space for an outdoor gym with glass curtains and fabulous covered and uncovered living areas. This apartment has privileged views of the sea thanks to its height.
