This newly built ground floor apartment is completed and ready to move into, but is now being offered at €395,000 – a very competitive price point for a property with two bedrooms, two bathrooms, private patio and garden, and access to a full range of communal facilities. Here you get the benefits of new construction without having to wait for construction to start or move in. An opportunity for those who want to make a smart investment in Estepona and at the same time be able to start using your new home immediately. From the living room you reach the spacious terrace that turns into a private garden. The patio becomes a natural extra living room for much of the year. The property also includes a private garage space and storage room. The gated urbanization also offers an attractive range of communal facilities, including a pool area, gym with sauna, coworking lounge and communal roof terrace with fantastic views of Estepona and the mountains. Everything is completed and ready to move in. New construction guarantees and energy certificates are in place, which means you can take over a finished home without having to wait for construction or completion.
